PROFESSIONAL PROFILE

Computer Science undergraduate at the University of Ruhuna with an interest in software engineering and frontend development. Gained practical experience through personal and university group projects involving web and mobile application development, backend technologies, and database management. Familiar with Java, JavaScript, React, Flutter, Spring Boot, and SQL technologies. Eager to learn new technologies, strengthen practical development skills, and contribute to real-world software projects through an internship opportunity.

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript, React
- **Mobile Development:** Flutter, Dart
- **Backend Development:** Java, Spring Boot
- **Programming Languages:** C, Java, Python, JavaScript
- **Databases:** MySQL, PostgreSQL, SQL
- **Tools:** Git, GitHub, NetBeans

SELECTED PROJECTS

SkillLink – Local Service Provider Marketplace

Technologies: Flutter, Spring Boot, MySQL

- Developing a mobile app connecting customers with local service providers, with profiles, bookings, and reviews.
  Live Demo - Mobile Application | Admin Web Application

Restaurant Web Application

Technologies: React, JavaScript

- Developed a responsive restaurant website with an interactive user interface using JavaScript.

University GPA Calculator

Technologies: HTML, CSS, JavaScript

- Developed a web application to calculate university GPA from course grades and credit values.

Royal Invites – Wedding Invitation Maker

Technologies: PHP, Laravel, MySQL, HTML, CSS, JavaScript | Live Website: royalinvites.infinityfreeapp.com

- Developed a web app for creating personalized wedding invitations using customizable templates.
- Users can enter wedding details, preview invitations, and download them as PNG and PDF.

SolarIQ – Smart Solar Energy Management System *Ongoing*

Technologies: React, Flutter, Java, Spring Boot, PostgreSQL

- Developing a web and mobile app for solar system planning, cost estimation, order management, and energy monitoring.
- Helps users explore solar configurations, estimate component costs, and monitor energy usage through IoT.

Human–Elephant Conflict (HEC) Awareness and Alert Application

Technologies: Java, Java Swing, MySQL

- Worked on the Map and Alert module, focusing on danger-zone awareness and incident reporting.

EDUCATION

BCS in Computer Science (General) – University of Ruhuna, Sri Lanka *2024 – Present*
G.C.E. Advanced Level – Sivali Central College, Ratnapura | 2Bs passes and 1C pass *2022/2023*
G.C.E. Ordinary Level – Sivali Central College, Ratnapura | 9 A passes *2019*

PROFESSIONAL EXPERIENCE

Trainee – People's Bank, Nivitigala *Sep 2023 – Aug 2024*

CERTIFICATIONS & TRAINING

- SQL for Beginners — SoloLearn, October 2025
- Python for Beginners — University of Moratuwa, March 2023
- Introduction to Data Analytics — Simplilearn, January 2026
- C# Programming — DP Education IT Campus 2026

LEADERSHIP & UNIVERSITY ACTIVITIES

Finance Team Member – Road to Rush Coder 3.0 *CS Students' Community University of Ruhuna*
Finance Team Member – Animus 1.0 *CS Students' Community, University of Ruhuna*

.

PROGRAMS & ACHIEVEMENTS

Selected Participant – SSoC Season 5

- Selected to participate in Season 5 of the program.

SOFT SKILLS

Teamwork and collaboration • Communication • Problem-solving • Time management • Adaptability • Willingness to learn

LANGUAGES

Sinhala – Native | English – Working proficiency
